

Party Tips

To ensure a great experience:

1. Seating should face the staging area.
2. To avoid spills, no eating or drinking during the show.
3. Parents enjoy the show as much as kids do, so if space allows, consider inviting them to the party.
4. Prepare cameras. Charge video and digital cameras. Stock up on extra memory cards and batteries.
5. Keep dogs, cats, etc. separated from the party area.
6. A few balloons on your mailbox/outside the building can help partygoers identify where the party is.
7. Reserve a parking area close to the door where the clowns can bring in various items. Doing so will make set-up much easier and faster.
8. Be sure to include a GPS-friendly address on the invitations.
9. Make sure that there are outlets near the stage or extension cords available

Food

- If it's mostly kids at the event, keep the beverages and food simple, bottled water, Kool-Aid and maybe 2 soda choices, one diet and one caffeine free.
- Consider doing cupcakes instead of cake. Cupcakes are easier to eat, no cutting required and no utensils.

Decorations

To decorate or not to decorate, THAT is the question!

Honestly, the decorations are mostly for the adults. You can keep it simple with just a few balloons and the kids are happy. Add a delicious and nicely decorated cake/cupcakes and you're done!

But if you really WANT to dig deep inside and get in touch with your inner Martha Stewart...
