

## **A Sample Party Schedule**

1. Attendees arrive -  
Play organized games or color Pipsqueak pages while stragglers are arriving and while Pipsqueak's crew preps the show.
2. Pipsqueak's show begins approximately 20-30 minutes after party starts.
3. Show is dismissed, partygoers sing happy birthday and eat cake while Pipsqueak and clowns set up for face-painting and balloons OR pack up show material.
4. As children are finishing food, they come a few at a time for face-painting and to receive their balloon sculpture. For face-painting, we usually figure five minutes per child.
5. After balloon sculptures are given out and face-painting is done, it's time to open presents while Pipsqueak is doing a final pack-up. Party bags are given to the birthday mom at this time. We suggest passing the bags out as the children are leaving so items in the bag are not spilled or lost.
6. Parent receives HUGE hug from a grateful child who will always remember this "wonderizmic" birthday party!
